

Ishida WIL-Acro II Printer Starter Keyboard

Copy the "Data09" folder to a USB flash drive. In the **File Save / Load** menu load file "ACRO II STARTER KEYBOARD C2249V 25MAY2021" to the printer. Edit the keyboard as needed.

If the alignment of the keyboard sections is off when received into SLP-5, these are the steps and settings to correct it.

1. Open the SLP-5 Setup Utility.
2. Select **General** and click the **Supported Functions** tab.
3. Scroll to the bottom of the **General Operations** window and check "Uni-9/WM-Ai Preset Location".
4. Click OK and close the Setup Utility.
5. Open SLP-5 and open the Acro II presets under Uni-9/WM-Ai Presets.
6. Click the "Location" icon at the top of the screen: 
7. At the lower left select the appropriate section listed in the table below and set the values.

Section	Key Area Original Position (X)	Key Area Width
MAIN	3	698
RIGHT	700	94
FUNCTION	3	695

8. Click the Save icon and exit.
9. Edit the keyboard as needed.
